

Product Business Manager (Belgium)

Job description

For our product division in Belgium we are looking for a dynamic passionate and driven Product Business Manager to prepare and lead the launch of Lienion and Theemion in Belgium. Lienion is a cloud-based software solution that focuses on project management processes like communication, collaboration, todo & task management, process or time management, ... Theemion is a web-based application to create professional CMS based websites and webshops in a few simple steps.

Profile of the ideal candidate

The ideal candidate would have/be:

- Successful work experience in preparing the launch of and launching software products
- Preferably a degree (bachelor or master) in ICT management
- An in depth understanding of the market of cloud-based software solutions sold via the SAAS model
- Experience with market research
- Experience with guiding an abroad development team
- Good computer skills, Microsoft Word, Power Point and Excel
- No 9 to 5 mentality
- An excellent spoken and written knowledge of English
- A real go-getter attitude
- Stimulated by working against challenging targets

The ideal candidate would have/be:

- An independent worker
- An initiative taker
- Result driven & "Can Do" attitude
- Excited and passionate by sales results
- An inspiring leader and an excellent communicator
- Good in negotiation and influencing skills

The compensation package:

We offer you:

- A competitive pay package
- A dynamic and challenging job in an open work environment
- Exciting management responsibilities
- The opportunity to grow with the company
- A front seat ride in the roller coaster of selling cutting edge technologies

Job location:

Tremelo (Belgium)
